

E-T-A Recognizes Digi-Key Electronics for its 2021 Sales Growth Achievement

Mt. Prospect, IL – May 25, 2022 | E-T-A Circuit Breakers recognized Digi-Key Electronics for its 2021 Sales Growth Achievement during EDS 2022 in Las Vegas, Nevada.

“Digi-Key Electronics plays an integral role in E-T-A’s go-to-market strategy,” says John Guetens, North American Sales Manager. “Whether it’s a New Product Introduction (NPI) or its well-balanced stocking position, Digi-key is the ideal partner to help us meet our sales goals.”

“Using the Digi-Key Electronics website to promote and position E-T-A’s products adds immeasurable value,” says Ellen Albright, Marketing & Communications Director. “Working with our Senior Product Manager, Marty Peterson, allows me to make sure E-T-A’s products are categorized properly and there is stock on the shelf to support customers.”

About E-T-A

E-T-A Circuit Breakers is a world leading manufacturer of circuit breakers and is a single-source supplier for most circuit protection technologies: thermal, thermal-magnetic, magnetic, electronic and high performance. Additionally, E-T-A is a leading manufacturer of relays, solid state remote power controllers (SSRPCs), and power distribution. All E-T-A circuit protection devices are RoHS compliant. With North American headquarters in Chicago, the company serves industrial OEMs and end-users.

About Digi-Key Electronics

Digi-Key Electronics, headquartered in Thief River Falls, Minn., USA, is recognized as both the leader and continuous innovator in the high service distribution of electronic components and automation products worldwide. As the original pioneer in this space, Digi-Key provides more than 13.4 million components from over 2,300 quality name-brand manufacturers with an industry-leading breadth and depth of product in stock and available for immediate shipment. Beyond the products that drive technology innovation, Digi-Key also supports design engineers and procurement professionals with a wealth of digital solutions and tools to make their jobs more efficient.
